

Alternative Sewer Solutions

Project Highlights

- Project provides funding for the Alternative Sewer Solutions Study; study area is unincorporated Leon County, and includes Primary Springs Protection Zone.

Current Status

- Blueprint has funded and Leon County is currently managing the first phase of this project: the Comprehensive Wastewater Treatment Facilities Plan (CWTFP), which began in November 2019.
- The Task 1 Report on Nitrogen Reduction Performance Criteria for Alternative Wastewater Treatment Systems, Task 2 Report on Cost-Effectiveness of Alternative Technologies, and Task 3 Report on Factors Other than Cost-Effectiveness that Influence Selection of Treatment Technologies have been received and reviewed by County Staff.
- Task 4, Public engagement on Tasks 1, 2, and 3, was undertaken in August 2021.
- Task 5, Onsite Sewage Treatment & Disposal System (OSTDS) Retrofit Implementation Scenarios, is underway
