

Civil Engineer III

Blueprint Intergovernmental Agency

Tallahassee-Leon County Office of Economic Vitality

Salary: \$47,049.60 – \$108,180.80/annually

Hiring Rate will generally not exceed \$94,099.20/annually

Blueprint Intergovernmental Agency a qualified engineering project manager to join its team. The Blueprint Intergovernmental Agency is a unique, joint City of Tallahassee-Leon County Agency responsible for planning, designing, and constructing community-enhancing projects funded by a local option one cent sales tax. Blueprint project managers, engineers, and planners work together to preserve, protect, and enhance the community's quality of life through the implementation of holistic and coordinated transportation, water quality, environmental and green space projects. The Blueprint program began in 2000, and it is now entering its second iteration of voter approval. The workload encompassed by this second iteration is a series of 27 varied projects, which have been programmed for completion within the next 20 years with an approximate value of \$750,000,000. The upcoming projects include parks (Lake Lafayette and St. Marks Regional, Market Square, and the Northeast Park); walking and cycling trails and trail networks through environmentally sensitive areas such as alongside our canopy roads (Greenways Master Plan and Bike Route Network projects); roadway projects providing picturesque arteries into and throughout the City of Tallahassee and relieving congestion (Northeast Gateway and Airport Gateway projects among many more), water quality enhancement and flood stage alleviation projects (Capital Cascades Trail Segment 4) and placemaking projects providing wide sidewalks and plaza and park-like amenities to activate epicenters of the City (Midtown, the Fairgrounds, and along portions of Orange Avenue). For more information regarding Blueprint's upcoming projects, please visit <http://www.blueprintia.org/>.

Many of the current and upcoming projects have significant and complex engineering components requiring qualified engineering analysis, management and oversight. To support the Work Program, Blueprint intends to hire a highly competent technical engineering project manager to join the Agency team. Duties for all project managers include tasking and directing project team members, representing Blueprint at project meetings, and communicating with citizens. This position will also serve as a technical advisor to Blueprint and will manage engineering elements of Blueprint projects including the management of consultants, coordination with regulatory agencies, permitting support and constructability review. Blueprint project work requires excellent written and verbal communication skills, with the ability to represent Blueprint to its managing Intergovernmental Agency Board and oversight committees through written report and oral presentation. Project managers are also expected to manage project contracts and consultants while protecting the integrity of the project's schedule and budget throughout the project's duration. Project managers will also work closely with Blueprint project
