

Lake Jackson Greenways

## Project Highlights

- Will expand regional bicycle and pedestrian mobility and provide connectivity from Lake Jackson Mounds Archaeological State Park to Lake Ella at Fred O. Drake Park in Midtown Tallahassee
- Includes an over 5-mile long route that will connect a string of public spaces, recreational, residential, and commercial areas.

## Current Status

- Preliminary engineering phase kicked off in June 2020. A route feasibility study was completed in November 2020.
- Community engagement sessions were facilitated in March 2021.
- Design is underway.

## Next Steps

- Design is anticipated to be completed Q1 2022. Once 60% design plans are submitted, required permits will be submitted.
- Construction is anticipated to begin in Spring/Summer 2022 and last 12 months.

## Timeline

**Community Engagement:** Public engagement is ongoing through all phases of a project, from concept to construction, programming, and maintenance. Public engagement is two-way communication inclusive of all decision-makers and stakeholders. Each Blueprint project will have a customized Public Engagement Plan that is developed at the start of the project, and outreach activities and techniques will vary from project to project, as each project's outcome and stakeholder community character is unique.

**Design:** The design phase includes the development of final plans, construction documents and plan specifications.

**Right of Way Acquisition:** This phase will consist of efforts to acquire any right of way fee and/or easement parcels necessary to complete the project. Any right of way acquisitions necessitated will be undertaken consistent with [Blueprint Real Estate Policy](#) and Florida State Statutes.

**Construction:** Construction work will fully implement the final design plans for the Lake Jackson Greenways.
