

Meridian Greenway

Project Highlights

- This project will create an approximately 6 mile long shared-use trail project serving pedestrians, runners, hikers, bicyclists, and other non-motorized users.
- The greenway is anticipated to connect Elinor Klapp-Phipps Park and Alfred B. Maclay Gardens State Park to the Northeast, Bannerman Road, and Orchard Pond Greenway's east trailhead.

Current Status

- The implementation of the Meridian Greenway from Bannerman Road to the Lake Overstreet Trailhead is currently included in the scope of the Northeast Connector Corridor Project.

Next Steps

- A Feasibility Study is planned to determine trail alignment options as part of the next phase of the Northeast Connector Project. The Feasibility Study is expected to begin in 2022.
