

*Capital Cascades Trail
Segment 4*

Project Highlights

- This project will complete the Capital Cascades Trail network, which will provide connectivity and improvements linking Leon High School in Downtown Tallahassee to Lake Henrietta.
- The project area is approximately 1.7 miles in length commencing at the confluence of the St. Augustine Branch and the Central Drainage Ditch, which is south of the new intersection of FAMU Way at Lake Bradford Road, and continues south to its confluence with Munson Slough, which is south of Orange Avenue and east of Springhill Road.
- The scope of the project includes achieving water quality improvements, sediments basins, greenway interconnectivity, and wetland creation.

Current Status:

- The project is undergoing scope development. Next steps include advertising for planning and design services.
