

*Cascades Park Amphitheater
 Weatherization*

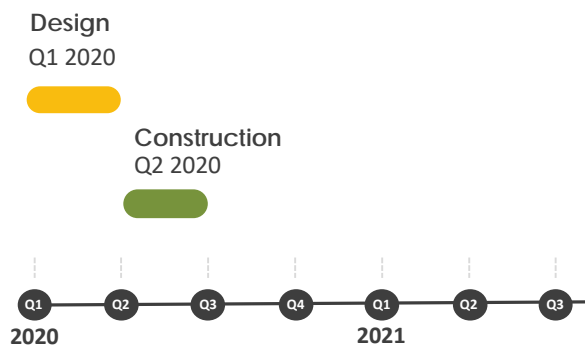

Project Highlights

- In February 2018, Leon County Commissioners approved a concept to reduce rainwater impacts on the Amphitheater stage.
- This project implemented that concept, with the Leon County Division of Tourism acting as fiscal agent, and Blueprint managing the design construction and inspection services.

Current Status:

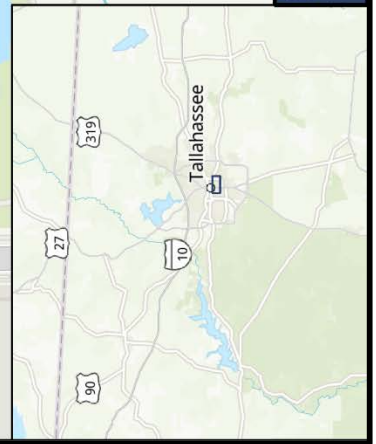

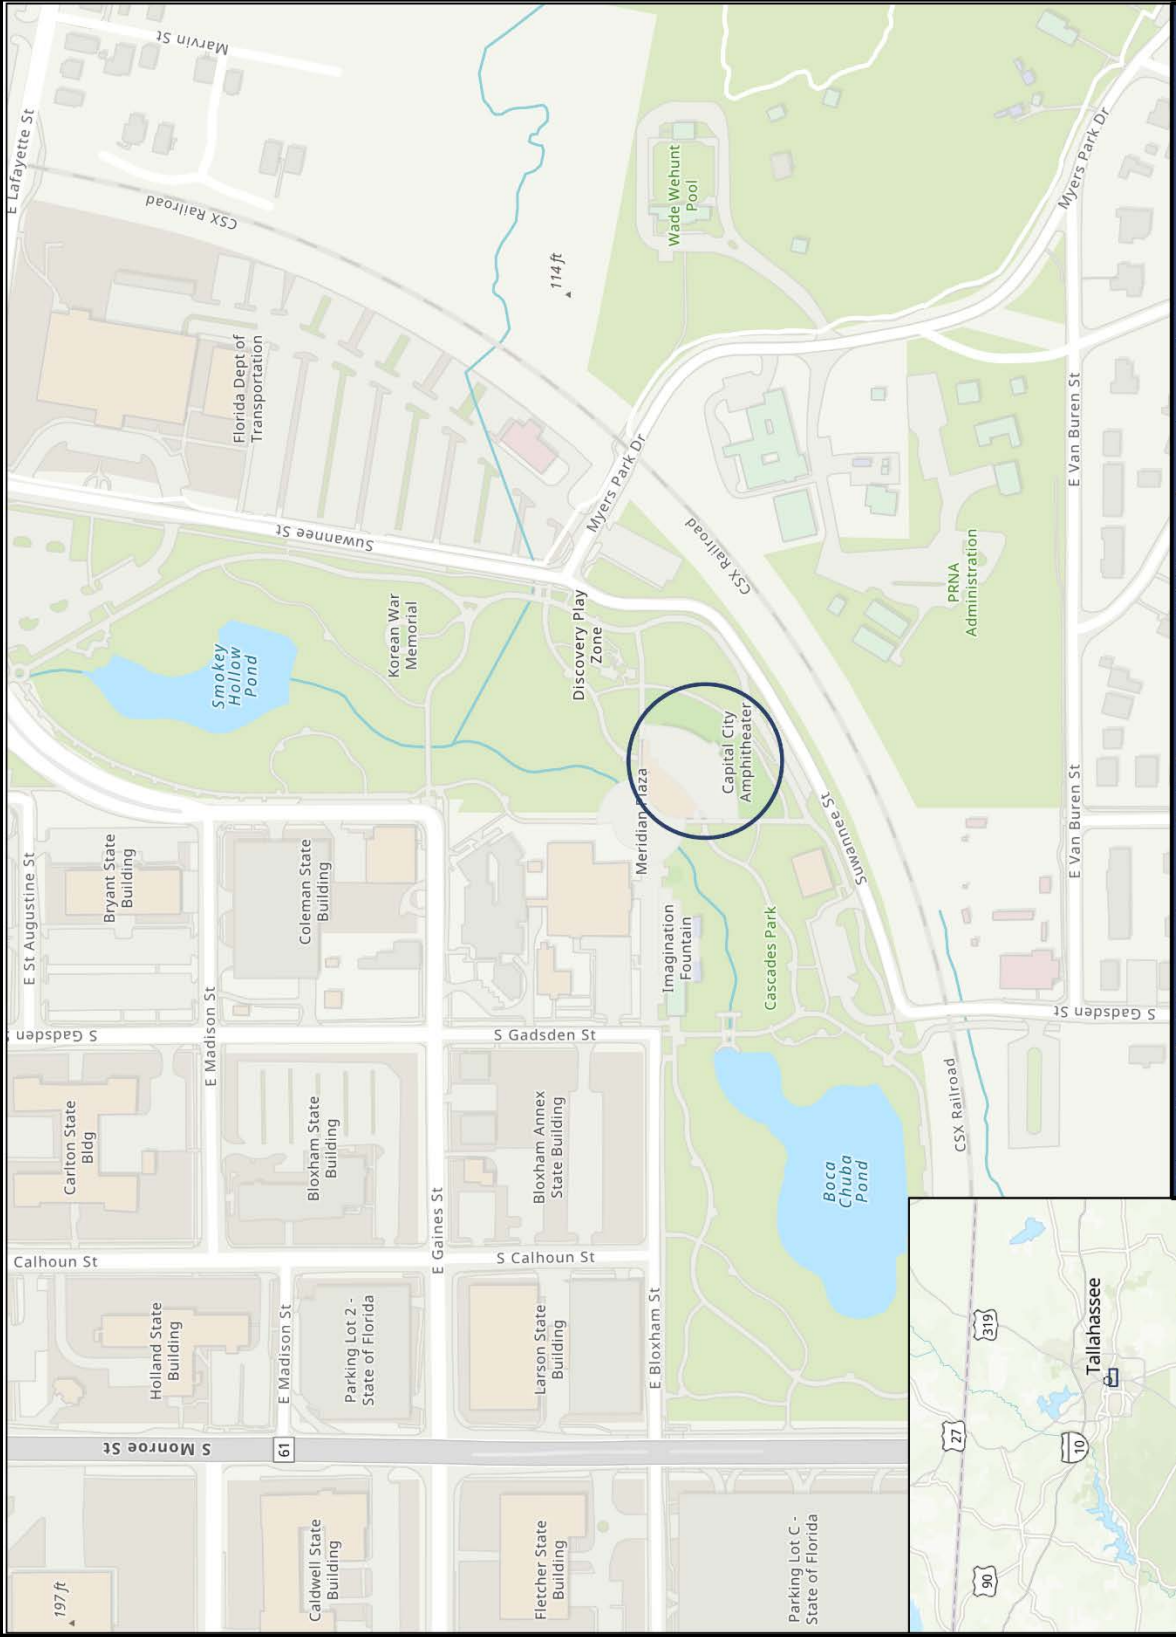

- Construction was coordinated with City of Tallahassee Department of Parks, Recreation, and Neighborhood Affairs.
- A new house speaker system purchase is currently being negotiated.
- The new house speaker system is part of a continued effort to mitigate the impact of sound from the amphitheater on the nearby neighborhoods.
