## Airport Gateway

### Project Highlights

- The project purpose is to create a unique, safety-enhanced, multimodal gateway entrance into Downtown, FSU, and FAMU from the Tallahassee International Airport. Project goals include expanded investment in southwest Tallahassee-Leon County, supporting local growth of the high-tech sector in areas such as Innovation Park, and improving neighborhood safety.
- The project includes planned improvements for over 7 miles of southwest area roadways, a new road to Innovation Park and FAMU + FSU's southwest campus, and over 13 miles of new or improved multimodal facilities, including a portion of the University Greenway.

### Current Status

- Construction of Segment G-1 (Springhill Road: Capital Circle to south of Windy Pines Lane) will be completed June 2026.
- Design is currently underway for Springhill Road, Levy Avenue, Stuckey Avenue, and the new roadway to Innovation Park. FDOT is leading roadway design along Orange Avenue.
- ROW acquisition is underway along Springhill Road.
- Construction of the Airport Gateway will be completed in phases to reduce traffic and utility disruptions, minimize costs, and prioritize the most needed and beneficial infrastructure improvements.
- Blueprint is coordinating with FDOT on multiple projects in the area, including the Springhill Road bridge replacement over Munson Slough and the improvements at the Springhill Road/Orange Avenue and Springhill Road/Capital Circle intersection.
