CCT Segment 3 History & Culture Trail

Project Highlights

- The History & Culture Trail (HCT) project celebrates and highlights the history and culture of the neighborhoods and businesses along FAMU Way through artistic, cultural, and historical interpretative kiosks that display images, photographs, and historical information.
- Through a partnership with the Council on Culture and Art (COCA), 12 artistic installations were made complement the interpretive kiosks.
- The project incorporated a citizen working group, who assisted in the concept and content development for historical and cultural interpretations.
- Take a virtual tour of the History and Culture trail and learn more about the area's history and the project art installations and artists via our Storymap [here](#).
